

DANIELSON AND PUTNAM NEWS

DANIELSON

Hearing of the case of James Morrison, who was arrested Saturday in Danville, was postponed two weeks by Judge W. F. Woodward, sitting at a session of the town court Monday morning. Morrison will be charged with assaulting his sister, Mrs. John H. Perry, who was unable to appear in court on Monday, with assaulting Constable George Alvord of Danville whom he attacked with a club with nails in it and struck a blow that glanced off the officer's shoulder and down to his wrist and with being intoxicated. Morrison's bonds were fixed at \$500, in default of which he was taken to Brooklyn jail to await trial.

The body of Thomas McLaughlin, found three weeks ago under a tree in the woods near Wareham, remains unclaimed at the undertaking rooms of L. E. Kennedy on Furnace street. No word has come to officials from any of McLaughlin's relatives, who are believed to live in Utah or vicinity. It is understood that the body will be held but a short time longer before being buried.

Monday morning the funeral of Mrs. Mary Dubuc was held from her home on Main street, with services at St. James' church, Rev. M. J. Gine, M. S., being celebrant of the high mass of requiem. Burial was in Holy Cross cemetery. The bearers were Roscoe Breault, Derrick Breault, Peter Turgeon, August Trahan, John M. Bessette and Salim Croquette. Louis E. Kennedy was the funeral director.

The funeral of Edward Ganthier was held from his home in Danville Monday morning, with services at St. Joseph's church in Danville, the celebrant

of the requiem high mass being Rev. Ignatius Kost, the pastor. Adolphe Parker, Clovis Parker, Peter Massé, Peter Rickety, Adolph Thibault and Adolphe Cousin were the bearers. Louis E. Kennedy was in charge of the funeral arrangements. Burial was in St. Joseph's cemetery. Fine residence to rent on Maple street, has all conveniences and garden, house, fruit trees, also tenant suitable for man and wife or for two ladies. Apply to Arthur G. Bill—adv.

Today (Tuesday) is the last day of the open season for hunting quail, partridges, woodcock, pheasants. Hunters who had planned to go Thanksgiving day will do so only at the risk of arrest and presentation in court for game officials will keep close watch to see that the game laws are not violated.

A report came to Chief John McLaughlin of a collision between an automobile owned and driven by Victor Perreault and a car bearing a Massachusetts registration. The machines crashed near the junction of Dyer and Franklin streets. Neither car was seriously damaged.

"Suds" the great, new comedy picture featuring Mary Pickford will be shown at the Orpheum theatre Wednesday and Thursday day afternoon and evening. "Suds" builds the loveliest dream castles out of soap bubbles. It is a rare picture in that it goes straight to the heart and awakens a sort of human sympathy.

Added to this picture, Thanksgiving day, will be a million dollar Lloyd comedy to round out a splendid holiday bill—adv.

Partners who have been watching the falling grain prices see a ray of encouragement in the fact that some of the mills are closed, but it also has gained some who have moved into town from other textile centers where business has been slack for weeks past. On the whole the town's net loss is not large and will be quickly made up upon the resumption of activities. It is stated by men in the textile trade.

Tuesday of next week there will be a resumption of the hearing, before the Public Utilities commission at Hartford of the matter of the borough and the East Brooklyn fire district's claims relative to service by the Crystal Water company and the rates charged therefor.

It was stated Monday by one of the counsel in the case that it is not likely that the case of Miss Gertrude A. Wardell vs. the town of Killingly will arise before the superior court until the March session, although there is a possibility of its being heard at the special session to be held in February.

Rev. Sherred Soule, a graduate of Killingly High school, delivered the principal address at a union service held by the South Baptist church, the Memorial Baptist church and the South Park Methodist church in Hartford, hymns and prayers symbolic of the spirit of Thanksgiving and the 398th anniversary of the landing of the Pilgrims marked the service.

"The journey of the Pilgrims across the seas was in reality a missionary movement," said Mr. Soule, who went on to draw lessons from the deeds of these forefathers for the present generation to interpret the "message of 1620 to 1920." He spoke humorously of the lines, "And the breaking waves dashed high on a stern and rockbound coast," adding that the author was in error, as the Cape Cod coast was sandy and with one exception not strewn with large rocks. But still the spirit was there and "although there were but few in that band, when they stepped on the shore there was the tread of a nation that has made thrives, treads and tyrants fear."

He reviewed briefly and shed new light on the reasons for the Pilgrims' departure and the story of their trip. He told of conditions in England, especially in London, previous to their decision to sail, saying that crime was rampant and the people did not have the true interpretation of the scriptures that was later revealed after the invention of printing. They gleaned from the Bible, he said, some of the lessons of Proverbs and the "majesty of the Psalms," which inspired in them the desire to establish for themselves a religion after their own fashion. He dwelt on their journey to Holland, and of their dissatisfaction and their fear

of losing their identity through intermarriage with the people of that country. He told of their landing here and of their desire to go missionary work among the Indians and people of their own race. He did not fail to mention the value of the work of such men as John Rogers, whose purpose it was to try the Christian faith to the heathen. He spoke especially of those who are too apt to boast of descendants among the Pilgrim Fathers saying that they are descendants of the Pilgrims who do the deeds of the Pilgrims and draw a lesson from this in Christ's admonition "that they are the seed of Abraham who do the deeds of Abraham."

"How can we keep faith with the Pilgrims?" he continued. "What is the message of 1620 to 1920? Among others he mentioned these ideals, which the Pilgrims brought to this country with the intention of establishing them as the backbone of the nation they intended to form: Faith, morality, education and law," and he tempered each with an explanation. Outstanding among the gifts of the Pilgrims, he said, was the idea of "individual responsibility to God."

Miss Katherine D. Aylward, of the Danielson central office of the S. N. E. Telephone company was at New London Monday, attending a conference of chief operators.

All schools in Killingly will close Wednesday afternoon for the Thanksgiving recess.

John F. Lewis was in Providence Monday on a business trip.

Poster people who come to Danielson now to do shopping have again resorted in many cases to driving in, having lost the trolley service that they have been accustomed to for years.

W. Irving Ballard of the Merchants National bank of Boston was in Danielson Monday.

An investigation resulted in the ferreting out of the theft of a Liberty bond from a home in Elmville had a satisfactory adjustment of the case.

At the postoffice the usual schedule of holiday hours will be in force on Thanksgiving day and the rural service will be suspended. No money order or postal savings business will be conducted.

PUTNAM

Mr. and Mrs. Charles Miron and Attorney and Mrs. Irving H. Miron were at Millbury, Mass., Monday evening, to attend an observance of the silver wedding anniversary of Mr. and Mrs. Charles E. Kane. Mrs. Kane is a sister of Charles Miron.

District Deputy James A. McArthur of Hartford will make an official visitation to Putnam lodge of Elks this (Tuesday) evening. In connection with the district deputy's visit here a degree will be conferred upon a class of twelve candidates and a lunch is to be served.

Miss Alice Sherman of the Putnam exchange was at New London Monday attending a conference of chief operators of the S. N. E. Telephone company in the eastern district.

Before Judge Gardner Greene and a jury in the superior court here this morning trial of the case of Miss Jennie Willis vs. N. A. Ballard and M. J. Kenney will be resumed.

Messages from as far away as Nauheim, Germany, have been picked up at a wireless station erected on the roof of the Bradley building on Main street by J. Louis Braccone, who is much interested in wireless work.

One Putnam physician said at noon on Monday that he had encountered five new cases of measles during the morning. New cases of the disease are appearing here at the rate of about twelve a day.

W. Irving Ballard of Boston was a visitor in Putnam Monday.

Materialists who tried to make the trip from this city to Providence by way of Chepachet on Sunday encountered great difficulties on account of the sleet storm, which coated the surface of the detour with ice and made it almost impossible to control a car. Seven machines were stalled within a hundred yards on one part of the detour, a motorist reported here.

Some of the silverware taken from the car in which Mr. and Mrs. A. F. Bradley and Edward Shackleton were riding when Officer Eugene Gibeau arrested them in the city, has been identified as having been taken from the residence of Worth Dexter, Chicago, at Marion, Mass., where the family spends the summer season. A servant of the Dexter family who was visiting in Pomfret identified the silverware.

As yet there has been little concentrated effort to boost the fund for Holy Cross college, Worcester. In this city and vicinity, but more active work is expected soon. Connecticut's quota of \$150,000 will contain many contributions from Putnam and nearby towns when it is completed, it now seems certain.

Children at the county home, patients at the Day Kimball hospital and inmates of the town farm will have special and beautiful Thanksgiving dinners, plans for which are being made.

This is the last day of the open season for hunting partridge, quail, woodcock and pheasants. Very few hunters ventured into the woods on Monday on account of the cold, northeast storm.

Many of his friends in Putnam will miss this week the Thanksgiving cards or would have come to them as "Souvenir" William H. Taylor was alive. For years he never missed sending to at least a score of friends here and to many in surrounding towns a group of Thanksgiving cards. This was his rule before every holiday throughout the year. His souvenir hobby cost Mr. Taylor many hundreds of dollars during his life time, but he frequently stated that he found no greater joy in his life than cheering up his friends everywhere with pretty reminders and greetings just before every holiday season.

Invariably the cards came through fit for use by the friends who received them and the supply was always very liberal.

GRIP MAY RETURN

Doctors say influenza may come back. If it does, be ready to fight off the germs by taking Father John's Medicine now to build new resisting power.

Remember, this pure food Medicine is guaranteed free from alcohol and dangerous drugs and has been successfully used for 60 years for colds, coughs and as a body builder.

said to have slumped considerably since the raids of a week ago. Now come reports of distilling activities in other nearby towns and the prospects of raids to clean out the distillers who are tempted into the unlawful calling by the tremendous profits that are to be made by those who take the chances that go with the venture.

Four men charged with having been indicted were before Judge M. H. Gleason in the city court Monday morning. Two were sentenced to serve terms in the city jail, while two others against whom fines were assessed were being held at the police station here during the day awaiting the procuring of the money that would mean their release.

Riding continues very light on the trolley line through this city. The advancing of the zone fare to ten cents does not appear to have materially helped out the road in the matter of revenue, which it must have to make the line even pay its way. The thought that it may become necessary to suspend the service on account of unprofitable operation is beginning to come home to many citizens who realize what a business feeder it has been to the city, but no action on the part of any local interest has been taken toward insuring a continuance indefinitely of service and it is not likely that any action will be taken until it is too late to be of benefit.

No word came out of Worcester Monday as to whether the search for the ancient scabbard necklace stolen from the home of Arthur Sherburne Hardy at Woodstock had been successful. It is believed that the necklace may be traced, as it is of unusual design and is believed to have been made in the city, but no action on the part of any local interest has been taken toward insuring a continuance indefinitely of service and it is not likely that any action will be taken until it is too late to be of benefit.

Harvard students who gave their names as Roy C. Atwell and Henry V. Ricketts proceeded to Boston Monday morning after being left here Saturday night when they stepped off a train bringing a part of the Harvard football contingent from New Haven to Boston. The young men said they were in no hurry, anyway, to get back as it takes time to celebrate a victory over Yale.

A considerable number of Putnam people who are students in colleges are expected at their homes here for the holiday recess.
